CHAIRMAN’S SPEECH

Dear Shareholders,

I have great pleasure to welcome all of you to the First Annual General Meeting of your Bank and present the Annual Report of your Bank for the period ended March, 2011.

ECONOMIC SCENARIO

In a globalized world with its share of uncertainties and rapid changes, this year brought some opportunities and challenges as India moved ahead with steady steps on the chosen path of fiscal consolidation and higher economic growth.

India’s growth in 2010-11 has been swift and broad based. The economy is back to its pre-crisis growth trajectory. While agriculture has shown a rebound, industry regained its earlier momentum. Service sector continued its near double digit growth. The GDP of India is estimated to have shown growth at the rate of 8.6% in the real terms in 2010-11. Agriculture/Industry/Service Sector is estimated to have growth at the rate of 5.4%, 7.8% and 9.6% respectively. The economy has thus shown remarkable resilience to both external and domestic shocks. Exports have grown at the rate of 29.4% to reach USD 184.6 billion while imports at USD 273.6 billion have recorded a growth of 17.60% during April to January, 2011 over the corresponding period last year.

The money supply (M3) growth at 15.9% (year on year) during 2010-11 was lower than the Reserve Bank’s indicative trajectory of 17% due to slow deposit growth and acceleration in currency growth. The higher currency demand slowed the money multiplier. Consequently, M3 growth slowed despite a significant increase in reserve money.

During the year 2010-11 credit growth which was earlier driven by infrastructure sector became increasingly broad based across sectors and industries evidencing growth momentum and demand pressures. Credit flow to services sector increased significantly for transport operators, tourism, hotel and restaurant and commercial real estate besides retail, housing and personal loans.
In the first week of May, the RBI announced its annual policy for 2011-12. Based on assumption of a normal monsoon and crude oil prices averaging US $ 110 a barrel over FY2012, RBI projected the baseline projection of real GDP growth rate at around 8%.

The common theme of the policy seems to be to strongly rein in inflation amidst rising commodity prices and equally increasing demand. Food price control is a challenge to the policy makers. Repo and Reverse Repo rates both have been increased by 50bps which is expected to control the inflation seen in the last few years.

Increase in interest on Saving Bank Deposit from 3.50% to 4% will have an immediate direct impact on our net interest income and margin.

**INITIAL PUBLIC OFFERING OF THE BANK**

During the year the Bank came out with Initial Public offering which got tremendous response from the Public. The issue was oversubscribed by over 50 times. The share of the Government has been reduced to 82.07% from the earlier 100%.

The Bank has initiated second phase of recruitment process for the recruitment of 920 officers including specialized officers and 450 clerks through direct recruitment.

On behalf of the Board of Directors and on my own behalf, I take this opportunity to express my sincere thanks and gratitude to all the shareholders of Bank for reposing their faith in the Management. I also thank every employee of the Bank for their dedication and our loyal customers for their continued support and patronage.

I take this opportunity to thank all the directors on the Board of the Bank for their valuable contributions. I shall be failing in my duties if I do not thank the representative of the Government of India. My sincere thanks to the Ministry of Finance, Government of India and the Reserve Bank of India for their continued guidance and support.

Notice of the Meeting has been published in terms of Regulation 56 of Punjab & Sind Bank (Shares & Meetings) Regulations, 2008 and the said Notice and Annual Report were mailed to all the shareholders and the same was also placed on the website of the Bank www.psbindia.com.
